EXPERT'S OPINION

1869 GD 10

for Messrs: Westag & Getalit AG
Hellweg 15
33378 Rheda-Wiedenbrück / Germany

Product: GetaCore – solid surface material

The product submitted by the company mentioned above was examined based on the standard DIN EN ISO 846 on the determination of the action of microorganisms on plastics.

The results are summarized in the test report no. 3362/19 of 12 November 2010 of the company ISEGA - Forschungs- und Untersuchungs-Gesellschaft mbH Aschaffenburg.

The intact surface of the solid surface material submitted for analysis was classified as inert against the growth of moulds and bacterial according to the standard. The material does not facilitate the growth of microorganisms.

This expert's opinion was issued to the best of our knowledge and belief. It consists of 1 page.
